Hybrid Event – In-Person & Virtual

ABOUT THE CONFERENCE

Global Summit on

PREVENTIVE MEDICINE & PUBLIC HEALTH INNOVATIONS 2026

ABOUT THE CONFERENCE

The **Global Summit on Preventive Medicine & Public Health Innovations 2026** is a premier international platform dedicated to advancing research, strategies, and **innovations** that strengthen preventive healthcare and **global public health systems**.

Hosted in Basel, Switzerland — a renowned center for research and scientific excellence — this hybrid summit brings together public health experts, epidemiologists, clinicians, policymakers, and industry leaders to address critical health challenges and emerging solutions.

The summit promotes knowledge exchange, collaboration, and dissemination of evidence-based practices that improve population health outcomes worldwide. Key focus areas include preventive healthcare, disease surveillance, digital health technologies, health policy development, and innovative interventions to reduce chronic and infectious disease burdens.

Participants will gain actionable insights through keynote addresses, plenary sessions, oral and poster presentations, panel discussions, and interactive workshops designed to translate science into real world public health impact.

Conference Format:

- ✓ Attend in person in Basel
- ✓ Join **virtually** from anywhere in the world

Summit Goals:

- ✓ Promote evidence-based preventive medicine
- ✓ Strengthen global public health systems
- ✓ Advance digital and AI-driven health innovations
- ✓ Support emerging researchers and professionals
- ✓ Foster global partnerships for sustainable health
